

ADVANCING REHABILITATION SERVICES IN OUR REGION

OUTPATIENT REHABILITATION SERVICES

The Outpatient Rehabilitation Program provides personalized care that is focused on helping patients achieve their goals and return to a lifestyle that is as fully functional and productive as possible. Olean General Hospital offers a state-of-the-art facility with the latest in technology and relies on proven treatment techniques to achieve positive outcomes. The outpatient rehabilitation program achieved a patient satisfaction score of more than 95% in 2012 and 2013.

The program specializes in the evaluation, treatment and rehabilitation of individuals with pain, recovering from medical procedures, or who have sustained musculoskeletal or neurological injuries with services that include:

- Physical Therapy
- Occupational Therapy
- Speech Therapy
- Wellness Program
- Total Joint Care
- Falls Prevention Program

“Therapist works very well in making my treatment helpful. Answers questions and concerns in terms that are understandable.”

“This was the best physical therapy I was ever involved with”

“All therapists are friendly and helpful, very competent!”

“I worked in a rehab center for 7 years and this facility is efficient, competent and very friendly.”

DID YOU KNOW?

88% of physical therapy users say the care they received was beneficial to helping them return to normal activity, increasing their range of motion, and relieving their pain.

- APTA Consumer Survey, October 2007

Physical therapist-developed exercise programs can reduce athlete's risk of injury by 41%.

- American Journal of Sports Medicine, August 2008

One study found physical therapy helps 92% of patients with lower back pain.

- Spine, July 2008

Exercise can prevent falls in older people.

- Journal of the American Geriatric Society, December 2008

Early treatment by a physical therapist for low back pain (LBP), as compared to delayed treatment, was associated with reduced risk of subsequent health care utilization and lower overall health care cost.

- Spine, April 2012

MEET OUR STAFF

Justin Moyer PT, DPT, received his Doctorate in Physical Therapy from the University at Buffalo in 2006. Since graduating, he has worked in a variety of clinical settings and has had extensive experience treating patients with spinal dysfunction, sports related injuries, neurological disorders, and post surgical conditions. He joined OGH in January

of 2012 and enjoys working with a diversity of patients. Justin integrates manual therapy with evidence-based practice to optimize patient outcomes and patient satisfaction. He is a credentialed clinical instructor from the APTA and enjoys being a mentor to PT students. Justin is married with three children and enjoys hockey, golf, camping, and spending time with his family.

Mariusz "Marty" Morawski, PT, received his Physical Therapy degree from Academy of Physical Education in Warsaw, Poland in 1993. The primary focus of his professional career has been in out-patient settings. With almost 20 years of clinical experience Marty is a strong believer in patient empowerment and education to help his patients recover from their injuries as well as prevent them before they occur again.

He enjoys working with all conditions while having a significant interest in manual therapy, orthopedics, ergonomics and injury prevention. He focuses on giving his clients the tools to help them work toward function and independence. He continues to expand his expertise within these areas by attending continuing education courses. He is married and has two teenage sons. He lives in east Olean and enjoys many outdoor activities and loves to travel.

Cheryl Buringrud, PT, was born and raised in northern California. She graduated Summa Cum Laude from Sonoma State University with a B.A. in Physical Education and received a B.S. in Physical Therapy from the University of California at San Francisco.

Cheryl has practiced physical therapy in an outpatient setting for over 24 years, mainly in northern California, but also in St. Louis, MO for three years. She moved to western New York with her family in January of 2012, and has been with OGH since that time. She lives in Allegany with her husband of 27 years and her three sons.

Bryan Wilson, PTA, graduated with an Associate of Arts degree in Applied Science for Physical Therapist Assistant from Genesee Community College in 2008. He is entering his 5th year of clinical experience. Bryan became part of the Olean General Hospital physical therapy staff in 2010, where he continues to be part of a team that helps patients return to a healthy, active lifestyle.

His clinical interests are manual therapy, balance and core strengthening, orthopedic injuries, postural and gait training, and post-operative joint replacements. Bryan uses a functional evidence based approach with his patients and has shared decision making with the physical therapists. Bryan is married and enjoys spending time with his family, golfing and playing recreational sports.

Erin Baugh, PTA, is originally from Mobile, Alabama. She graduated from Genesee Community College as a Physical Therapist Assistant. Her primary interests lie in manual therapy and orthopedics. She enjoys treating patients of various ages and activity levels, especially patients with ankle and knee related injuries. She continues to expand her expertise in these areas and focuses on giving her clients the tools to help them work toward function and independence. Outside work, Erin enjoys spending time with family and friends, reading, and kayaking.
