Childbirth Preparation Classes

Olean General Hospital’s Prepared Childbirth Education and Breastfeeding classes are each a one-day class that are designed to provide education on the birthing process, what to expect when you come in to have your baby, events and procedures that may take place during your labor and delivery experience as well as breastfeeding basics needed to get you and your baby off to a healthy start. The program’s goal is to not only educate you and your support person, but also provide an opportunity to ask questions and connect with other first time moms-to-be just like you! It is recommended that new parents enroll around the 30th week of pregnancy. Participants should bring a bottle of water and their insurance card with them to class. Best wishes for a happy and healthy pregnancy!
